The Accidents were sensational, what a talented bunch of people. A spectacular accompany to a glamorous event not one person was sitting in their seat as the band played all the great songs from the 80's through to some of the top hits of today. We could not have asked for better entertainment and please forward on our thanks to them. Their interaction with the crowd was excellent and the brass boys were so entertaining people are still ringing me to compliment us on the choice of band. We wish you and the band every success in the future and if I do get any enquiries I will send them your way. Congratulations and thank you for being so professional and we hope to get the opportunity to work with you again in the future."

"The Accidents performed for the 2005 Hyundai Motor Global Distributors Convention in Gold Coast, for our guests from all around the world. Everyone must've been tired from the three-day long program, but with The Accidents on stage, it was hard to stop people from dancing -- the dance floor was full, and we thought the night would never end... and our guests had early morning long-distance flights to catch the next morning! The Accidents really knew their audience, and knew what would get them going. A vibrant, hi-energy band!"
